WOLF-PAK®
# DISINFECTING CAP

Why Wolf-Pak® Disinfecting Caps?

The Wolf-Pak® Disinfecting Cap disinfects all female needlefree valves in less than one minute and provides bacterial protection for up to seven days. Protects from touch and airbourne contamination after application. Completely Latex-Free.

1 **Colored cap** for visual confirmation of coverage

2 **Easily presses** onto female connector ends

3 **Foil cover** creates less waste

4 **Saturates Needle-Free connector** in 70% IPA solution
