

# WOLF-PAK® IV POLES

## Why Wolf-Pak® IV Poles?

Our IV Poles are designed for use in doctors' offices, hospitals, infusion suites, or in patients' homes. A disposable IV pole option is also available for home healthcare patients receiving gravity or pump administered infusions. Our IV poles are portable, lightweight aluminum, the pole sets up in seconds with no assembly required. The height is easily adjustable for floor or tabletop use.

Our Wolf-Pak® Disposable IV Poles eliminate the need for home healthcare nurses or drivers to pick-up the poles upon completion of therapy. The pole can be disposed in any ordinary home waste container or recycled.

**IVP3L**

**IVP4L**
